

Non Medicare Rebatale Test List

This list is not comprehensive and criteria may change at any time.

Barcode / Episode Number:

Billing for non Medicare rebatable tests

Not all tests are covered by the Medicare rebate. When your doctor requests a test which is not covered by Medicare you will be privately billed. If the testing is done by a laboratory other than SydPath you will receive an invoice from that pathology service. Tests performed at SydPath are in **bold type** on the Non Medicare Rebatale Test List and will require payment on the day.

Please note: SydPath's out of pocket guarantee does not apply to non rebatable tests.

Exceptions: Inpatients of St Vincent's Public Hospital and patients referred from St Vincent's Public Hospital Out Patient Clinics. The cost of these tests will be charged to the department of the doctor that requested them.

Max Schedule Billing

Some tests will be privately billed if the maximum number of rebatable tests per year is exceeded.

Examples:

Hepatitis B Quantitative PCR (Viral Load)	\$152.10	1 test in 12 months if NOT on Hep B therapy 4 tests in 12 months if on Hep B therapy
Hepatitis C Qualitative PCR	\$92.20	Testing for diagnosis purposes or 4 in 12 months if on Hep C therapy
Hepatitis C Quantitative PCR (Viral Load)	\$180.25	1 in 12 months for pre-treatment evaluation 2 in 12 months for assessment of efficacy of therapy

**Billing for Hepatitis testing requires relevant clinical notes*

Please refer to the Medicare Benefits Schedule for rebate eligibility criteria. Go to: www.mbsonline.gov.au

Consent

The testing laboratory will require your written agreement of payment before performing the test.

I agree to accept responsibility for the full payment of the fees for these tests.

Test: _____ Cost: _____ Test: _____ Cost: _____

Test: _____ Cost: _____ Test: _____ Cost: _____

Collector: _____ **Date:** _____

Non Medicare Rebatable Test List

This list is not comprehensive and criteria may change at any time.

7-Dehydrocholesterol	\$175.00	Fabry's disease screen (Alpha galactosidase)	\$232.00
Acid maltase (aka Alpha Glucosidase)	\$265.00	Familial Mediterranean fever gene analysis	\$250.00
Acylcarnitines plasma	\$200.00	Folliculin (FLCN) gene test	\$1430.00
Adalimumab level	\$100.00	Friedreich's Ataxia gene test	\$325.00
ADH	\$30.70	Ganglionic acetylcholine receptor	\$100.00
Adiponectin	\$30.70	GD1b antibodies	\$47.30
Alpha galactosidase (Fabry's disease screen)	\$232.00	Glycine receptor antibodies	\$100.00
Alpha glucosidase	\$368.00	Haemochromatosis gene analysis (HGA) <i>If private billing/not Medicare eligible; consent form is required to bill</i>	\$100.00
Alpha thalassemia gene test	\$400.00	HE4	\$46.00
Amino acids - plasma	\$100.00	Hereditary Spastic Paraplegic (HSP) gene test	\$1100-\$1540
Amino acids - urine	\$200.00	HMG CoA reductase antibody	\$17.35
Anti-Mullerian Hormone (AMH)	\$75.00	Homocysteine- urine	\$200.00
Apolipoprotein A1	\$44.00	HPV DNA (when Medicare criteria is not met)	\$55.00
Apolipoprotein B	\$44.00	HSP-70 antibodies	\$70.75
Apolipoprotein E genotype	\$100.00	Huntington disease genetic testing	\$100.00
Beta 2 transferrin	\$150.00	Hyperkalemic Periodic Paralysis DNA test	\$660.00
Beta thalassemia gene test	\$400.00	Hypokalemic Periodic Paralysis DNA test	\$440.00
Bile acids (if not pregnant or max limit of 3 reached)	\$20.00	IGFBP3	\$30.50
Blood pressure monitor	\$60.00	IL28B receptor assay	\$100.00
Boron	\$30.20	Infliximab level	\$100.00
Breast cancer genes (Medicare criteria not met)	\$2,000	Inhibin	\$82.00
CAH genetic test	\$795.00	Inner ear antibodies	\$70.75
Calprotectin, faecal	\$82.50	Interleukin 6	\$20.00
Carbohydrate-Deficient Transferrin (CDT)	\$120.00	Kennedys disease gene test	\$265.00
Carnitine	\$200.00	Leflunomide (LEF) level	\$150.00
Cervical Screening Test HPV - Medicare not met	\$55.00	Leptin	\$30.70
Cholinesterase genotyping (<i>Screen/Sequence</i>)	\$100 /\$200	Limbic Encephalitis (LE) panel (Urgent: \$200)	\$100.00
Chromogranin A (CgA)	\$45.00	Lipoprotein (a)	\$22.00
CLCN1 gene mutation test	\$1100.00	Liquid Based Cytology LBC - Medicare not met	\$75.00
CMV PCR (does not apply to SVH out patients)	\$120.00	Lysosomal (white cell) enzymes	\$390.00
Cobalt	\$30.20	Marfan syndrome genetic test (+\$400 if for MLPA)	\$1500.00
Co-enzyme Q10	\$75.00	MEN 1 gene test	\$560.60
Connexin 26 gene test	\$110.00	MEN II gene test	\$550.00
Connexin 30 gene test	\$80.00	Mesothelin / Mesomark (SMRP) test	\$160.00
Cystic Fibrosis testing	\$50 - \$250	Methylmalonic acid screen	\$200.00
Cytochrome P450 2C19	\$140.00	Mitochondrial DNA	\$400 - \$800
Cytochrome P450 Screen	\$270.00	MODY gene test \$750 per mutation/Family study \$200 per mutation	
DAZ gene PCR including AZF a,b,c,d	\$90 - \$125	MTHFR gene test (<i>Bulk billing requires clinical notes of proven DVT/PE or mutation present in 1st degree relative</i>)	\$60.00
DPD deficiency test	\$275.00	Multi gene pharmacogenomic test	\$270.00
Drug screen (sealed sample medico-legal testing)	\$28 - \$140	MuSK antibody (<i>Standard / O.S patient</i>)	\$70 / \$90
DYT1 mutation	\$150.00	MuSK antibody (<i>Vet Aff. & Health Care Card</i>)	\$50.00
Elastase - (faecal) pancreatic	\$140.00	Myotonic dystrophy gene test	\$265.00
Eosinophilic Cationic Protein aka ECP (>12 yr)	\$75.00	Neopterin - CSF	\$40.00
EPO (Erythropoietin)	\$56.00		
Eye muscle antibodies	\$35.00		

Non Medicare Rebatale Test List

This list is not comprehensive and criteria may change at any time.

Neopterin - Serum	\$40.00
NT-ProBNP	\$50.00
Neimann pick type C disease testing	\$110.00
NMDA receptor antibodies (Urgent: \$100)	\$50.00
Ornithine	\$100.00
PD-L1	\$150.00
Phospholipase A2 Receptor (PLA2R) Antibody	\$55.00
PIT-1 mutation	\$550.00
PKU genetic test	\$250.00
Plasminogen	\$33.00
Plasminogen Activator (TPA)	\$93.50
Plasminogen Activator Inhibition (PAI)	\$82.50
Platelet serotonin assay	\$45.00
Proinsulin	\$35.00
PROP-1 mutation	\$550.00
PTH-related peptide	\$100.00
RET gene - full screen (predictive testing is \$200)	\$600.00
Retinol Binding Protein	\$20.00
Reverse T3	\$60.00
Sandhoff disease testing (<i>Non-Pregnant/Pregnant</i>)	\$100/\$150
SDHB gene - full screen (<i>predictive testing is \$200</i>)	\$800.00
SDHD gene - full screen (<i>predictive testing is \$200</i>)	\$400.00
Soluble transferrin receptor	\$25.00
Soluble CD25	\$60.00
Spinocerebellar ataxia DNA	\$265.00
TCR gene re-arrangement	\$421.00
TRAPS genetic test	\$250.00
Transferrin isoforms	\$210.00
Vasopressin	\$30.70
Very Long Chain Fatty Acid (VLCFA)	\$175.00
Voltage Gated Calcium Channel	\$85.00
Voltage Gated Potassium Channel (Serum)	\$46.00
Voltage Gated Potassium Channel (CSF)	\$60.00
VHL gene - full screen (<i>predictive testing is \$200</i>)	\$300.00
VLDL cholesterol (Ultracentrifuged)	\$30.20
VLDL triglycerides (Ultracentrifuged)	\$30.20
Work Cover testing	\$165 -\$330
Y-chromosome micro-deletion	\$26.00
